

**HOSHIZAKI**

**> KMD-270AA**

daily ice production capacity of up to 270kg

Crescent-shaped ice moves around freely yet packs together tightly in its bin, maximising storage capacity. Individual crescents do not stick together as there are no air pockets so that each piece of ice comes across distinctive in a cup of drink. This unit can be fitted on a dispenser for quick and ease-of- access.

**> KMD-270AA**  
(With Hoshizaki Storage Bin - **B-301SA**)

CRESCENT ICE MAKER SERIES

**FEATURES**

- > stainless steel evaporator
- > audible controller board
- > easy cleaning with pull out filter & removable water tank
- > low 53db noise level
- > fitted with reliable mechanical proximity bin control switch
- > cyclesaver® design 
- > evercheck® alert 
- > compartmentalised internal design
- > able to be installed on 560mm (22") wide drink dispenser
- > water cooled model available
